

GARCIA GETS NO NOTIFICATION OF HIS RECALL BY CARRANZA

Has Wired Regarding His Status Here But Has Received No Answer; Doubts if Associated Press Would Be Given News First; Thinks Roberto Pesqueira Responsible for Attack.

AT NOON Tuesday, Andres G. Garcia, acting Mexican consul general here and Inspector of Mexican consulates in America, denied that he had received any word to the effect that he was to be recalled here and recalled to Mexico City. Word that he was to be withdrawn because of his attitude at a recent banquet where governor Hobbs advocated intervention, was received here in a dispatch of the Associated Press, from Laredo. Garcia said his political enemies probably used the press association merely as a cat's paw in snubbing him.

"I think Roberto Pesqueira and some of his kind are responsible for the attack," Garcia said. "I have not received any such information and it strikes me as peculiar that President Carranza would notify a press association of his action prior to giving me any notice. I have wired the president asking for confirmation of denial of the report, but have received no answer."

Possible Explanation.

There is a possible explanation, and that is that I have been relieved of the duties of consul general in order to be allowed to devote my entire time to the duties of Inspector of consulates. Early in June, when Claudio Aguilar went to Europe, I asked that I be relieved of the routine work of consul general in order to give my attention to the other position. There was much talk at the time of the transfer and Mr. Aguilar agreed that I should be given only one work. He mentioned a word at that time and that was the last I heard of it.

There are some politicians who are very friendly to Americans when they are here, and then, when they go away, change their tune. I am glad to be able to say that my attitude toward Americans has been the same, regardless where I have been. Following the Hobbs banquet, which seems to have caused this report, I telegraphed an entire report to Mexico City. It is true that I observed good manners and did not walk out when Hobbs said things of which I disapproved. But following my report I have not received one word of notice regarding the matter, as I would have, had this report been true.

Mexican Consul Stays.

"If I should be true that I have been discharged this way, I would feel sure, and having been given a hearing, that it is for the best of Mexico, that it is all right. Mexico comes first. My attitude toward Americans has always been friendly and courteous."

He left at once for his father's bedside. Gen. Samaniego refused to talk about his mission, but from friends it was learned that while he did not get directly in touch with the Indians, he learned that certain concessions would have to be made if peace was to be brought about, and intended to confer with the governor on these points.

Pennsylvania Man Tells Of Exciting Incidents Encountered at Tampico

Telling an exciting story of adventures to rob him and other traveling companions, Tony Manassello, who says his home is in McKeeseport, Pa., arrived in Tampico, Mexico, Tuesday morning, after a journey of 10 days. He said he was in Tampico for a passport to reenter the United States. The man says his original passport was destroyed when he landed at Tampico and burned a small camp in the Tampico oil district.

Manassello was robbed of two suits of clothing and other valuables when the camp was burned to the ground by the attacking party. He said the men were engaged in finding only 400 pesos in the company safe. Manassello formerly was with the 11th and 12th cavalry, and prior to his discharge saw service in El Paso at various times. Four and a half months ago he, with four other Americans, were employed by a Texas oil firm and left Port Arthur to go to the Tampico district. After learning of the delay necessary in obtaining a passport from Washington, and frightened by what they believed was the ferocity of the bandits, Manassello and his companions decided to leave Tampico.

TOLD OF HUN ATROCITIES; EL PASO'S BROTHER GONE

Months ago American consul E. A. Dow in Juarez, was requested to initiate an investigation regarding the disappearance of James Sullivan, a Franciscan priest. The priest has a brother, Joe Sullivan in El Paso. Both were born in Ireland, and came to America when they were boys. James was educated for the priesthood.

James was in Louvain, Belgium, last as the opening of the war. He was supposed to have been a student there. Suddenly he disappeared and nothing has been heard of him. Joe Sullivan, however, asked Mr. Dow to look into the matter through the consular channel. The American consul in Brussels on request of Mr. Dow, asked the burgomaster of Louvain to look into the matter. He reported that Sullivan had been arrested by the Germans for having told of Hun atrocities. This was the last word received.

YACUI INDIANS MASS FOR WAR

Supplied With Arms and Ammunition by Wealthy Villa Adherents.

Agua Prieta, Mex., Nov. 18.—Information reaching here over the military telegraph is to the effect that despite the efforts of the main federal force to clean up the Yaqui Indians in this state, scores of redskins continue to mass in the mountains north of Tonolich, in the southern part of the state, where they have been concentrating for the past six weeks. All efforts thus far, according to report, to penetrate the mountain stronghold of the Indians have proven fruitless. According to the military authorities information was recently received from secret agents of the Mexican government that arms and ammunition were being supplied to the Indians by wealthy Villa adherents residing in this state, while the Yaqui were in command of at least five of Villa's officers, including one American who is said to have played a prominent part in military affairs at Mexico during the Madero revolution, a colonel, Herbert R. Stevenson, and a close personal friend of Gen. Felipe Angeles, who, together with Villa made an unsuccessful attempt to hold Juarez after its capture last June.

To Show You What Clean Teeth Mean

All Statements Approved by High Dental Authorities

This is to offer you a 10-Day Tube of Peppodent—the peppin tooth paste which combats the film.

Able authorities have proved the product by clinical and laboratory tests. The results are beyond any question. Leading dentists everywhere are now urging its adoption.

We ask you to prove it by a 10-day test. Do this for your sake and your children's sake. See for yourself how it will help you to cleaner and whiter teeth.

Film Wrecks the Teeth

That slimy film which you feel on your teeth causes most tooth troubles. Every modern dentist knows that. And for years dental science has sought a way to combat it.

Film is what discolours—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

Now science knows a way to combat it. The way is embodied in a dentifrice called Peppodent. It is now used daily on millions of teeth, largely by dental advice. To those who don't know it we supply a free tube, so they may find it out.

Old Ways Don't End It

This film is clinging. It enters crevices and stays. The tooth brush doesn't end it. The ordinary tooth paste does not dissolve it. That's why millions find that well-brushed teeth discolor and decay.

Peppodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Peppodent is to dissolve it, then to constantly combat it.

But pepsin must be activated, and the usual agent is an acid harmful to the teeth. So this method long seemed barred. Now science has found a harmless activating method, and teeth can now be daily cleaned as they never were before.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the film disappears.

This means more than pretty teeth. Compare your teeth now with your teeth in ten days and decide what is right for yourself. Cut out the coupon now.

It is believed that this fact has some connection with a recent decision of the department of agriculture to change the irrigation system at Juarez so as to include a larger area which can be made productive.

Officials and attorneys in Juarez declare that beyond the fact that the government has issued this request, no information has been given out. All are of the opinion, however, that the course of the canal is to be changed and that the new order is given to avoid disputes and confusion regarding ownership, when this is done.
